- ✓ Identity Verification

COMMERCIAL

We help facility & property managers reduce their work load by pleasing all parties involved without compromising the budget or build schedule.

DISTRIBUTION FACILITIES & WAREHOUSES

These facilities are always busy. We understand the importance of logistics & will work in partnership to keep operations uninterrupted. Let us help you select the correct coating to protect and beautify your facility for years.

DECK CEILINGS

Brightening the deck ceiling can increase light intensity and help improve safety standards. Deck ceilings with intricate roof trusses and corrugated ceilings can easily be painted with multiple coating options available.

RETAIL & MERCHANDISE STORES

Timing is everything. Our staff can work around your schedule in order to complete each project. Low V.O.C. paints are essential when paint odor is a concern. Our crew can work evenings to accommodate your business hours.

SPORTS VENUES

High traffic sports venues need paint with durability and wash-ability to hold up to the thousands of fans that come and go. We also have equipment available to re-stripe your facility's parking lot.

MUNICIPALITIES & INSTITUTIONS

Familiar with all local & federal labor laws such as prevailing wages, our company has experience handling the following types of jobs; schools, libraries, city & states buildings, federal facilities etc.

NEW CONSTRUCTION BUILD OUTS

Our staff is well aware of new construction build out time lines and deadlines. Capital Painting strives to please all parties involved without compromising the budget or build schedule.

HOSPITALS & HEALTH CARE FACILITIES

We pride ourselves on the ability to adapt to change quickly. Keeping up with the dynamic nature of the medical field helps us stay up to date with new products such as odor eating paints, eco-friendly & low V.O.C. coatings.

HOUSES OF WORSHIP

We use equipment and materials that will protect the original architecture of your facility and enhance it's beauty. Whether you're trying to maintain it's historic preservation or modernize, we can help with a free consultation.

CORPORATE OFFICE SUITES

From the boardroom to the bathroom, Capital Painting has experience working with some of the countries top fortune 100 and 500 companies. Such as contractual services for Allstate Corporate campus & Nicor Gas, as well as hundreds of local corporate office buildings.

RESTAURANTS

Whether you need one location or multiple locations painted, we can help. Our flexibility to relocate gives us the ability to paint multiple locations based on your needs and offer you packaged discount pricing for multiple facilities. Our crew can work around your business hours.

PARKING LOT STRIPING

Many facilities have the need for parking lot striping. Let us help by freshening up your parking lot, commercial loading zone, warehouse, or private drive. Custom stenciling is available upon request.

INDUSTRIAL

We provide industrial painting services for a wide variety of structures in various industries including factories, assembly plants, power plants, storage tanks, silos, wind turbines and more.

PARKING DECKS & GARAGES

Need to brighten up your parking structure? We have multiple product solutions that will hold up to the daily elements such as water, dirt and salt that each vehicle brings in. We also offer line striping, anti-graffiti coatings, and pressure washing.

INDUSTRIAL COATINGS

Each industrial project is unique and needs attention to detail. Capital Painting can offer many solutions to help keep the production of your facility running smoothly.

SILO STORAGE TANKS

We have a myriad of coatings solutions to offer for silo storage tanks. Whether in need of a repaint or a complete sandblasting, primer & paint, we can help. We have the necessary equipment to complete on time and on budget.

ETHANOL PLANTS

Most ethanol plants are in remote rural areas. Our Industrial crew is ready to mobilize to any location and get the job done. Primers, epoxy, urethanes, polyurethanes, alkyds, and enamels are some of the products that we use to protect and beautify your equipment.

POWER PLANTS

We are experienced with painting stacks, turbines, pumps, silos, pipes and other exterior facilities. It is essential that this equipment is prepped and coated correctly to withstand the harsh elements of the weather.

AGRICULTURAL

Our protective coatings work overtime to ward off attack from highly abrasive dry processes like grain storage, conveyor transport, milling, wet corrosive processes and chemical storage. Let us identify a coatings package that will protect and last for years.

MACHINERY

With many moving parts, motors, and delicate components we will make sure to protect all areas that need to be. Capital Painting's expertise in product knowledge and application is what makes us a great business partner.

WIND ENERGY PLANTS

Eighty meter wind towers have up to 21,000 Square Feet of surface area to coat to marine level corrosion resistance. Large capital investments require tower assets to be protected for extended periods. Our certifications allow us to climb, inspect, & paint these magnificent turbines.

PETROCHEMICAL PLANTS

If you have a chemical plant, oil refinery, petro chemical facility we can help. Our workforce is skilled in painting bulk storage tanks, process piping, steel structures, tank linings, secondary containment areas, high stacks, to name a few.

TRANSPORTATION & INTERMODAL

Our concrete, metal, steel, painting and refinishing systems have been thoroughly tested and refined in the field. Procedures include detailed surface preparation, careful monitoring of film thickness, adhesion testing, and color correctness checks.

INDUSTRIAL PIPING

Capital Painting has been serving the needs of the energy sector since 2000. Today Capital Painting is one of the leading independent pipe coaters, providing a variety of services for major energy companies in the oil and gas industry.
